ENJOY TODAY'S ALFRESCO LIVING WITHOUT THE FLIES

1

The handle operates the brake system. Tilt handle and slide to desired position. Release the handle and it locks in that position. Brakes also prevent flyback of screen.

2

5 year warranty (excluding mesh)

3

Manufactured locally and professionally installed by qualified technicians.

4

Track 37mm deep prevents mesh blowout

5

Right & left handed springs ensures even tension for mesh when sliding door forwards & backwards

6

High quality fibreglass mesh made specifically for and imported by ECLIPSE

7

Mesh rolls away into cylinder when not used to protect it.

8

Custom made specifically to suit your doors and windows.

Available in Dulux powdercoat colour range to suit your individual décor.
Can span to 4 metres (double door)*

*Maximum height and width ratio applies. Permissible ratios for double installation of screens (HxW) include: 2.2 x 4.0m; 2.4 x 3.6m; 2.7 x 3.0m
